

Fishing at the Long Bay House

Imagine a place where you can fish all night and all day and still not experience everything. Welcome to Long Bay House. Cast your line in the surf, go out to the flats, or deep-sea fishing. Could anything be better? We have some of the finest fishing you will find anywhere in the Bahamas. You can try your luck on your own or you can arrange to have one of the Cay's finest guides take you out for a day.

Our bonefishing is world class, our guides are famous, our fish are record makers and breakers. We have marlin, blues and whites (the record was 1035 lbs last season), sailfish, record breaking dolphin (73 lbs this year), and yellow and black fin tuna. The average fish weight caught is 40 lbs. We have an unbelievable array of reef fishing that will satisfy any fisherman's dreams.

The reefs are beautiful and teeming with life. The grouper are legendary, the jacks are big and strong, and the yellow tails are plentiful. You can fish out of a

60ft sportfisher or a 16ft john boat and catch more than you can eat almost every day. The water right off the beach is 40ft deep, and less than a mile from the shore it's 1000ft deep with the 100 fathom line running parallel to the Cay. If you like fishing, you'll love the Long Bay House on Green Turtle Cay.
